

Burhan Ahmad Wani

Engineering, GIS, Spatial Planning • burhan.wani.23@ucl.ac.uk • +44-7774685957 • London, UK

Executive Summary

A visionary "Future Cities - Innovator" with a decade of leadership in Spatial Data Science, Urban Planning, and Civil Engineering. I am currently advancing my expertise at UCL with a Master's in Urban Spatial Science, focusing on using advanced Spatial Analysis technologies including Machine Learning to create resilient and sustainable urban infrastructures. In my notable roles across government and public sectors, I have pioneered significant initiatives, such as the spatial planning of PMGSY-III roads—a £15 million project that significantly enhanced the road network in one of India's states and aligned with the UN Sustainable Development Goals. Committed to transforming urban environments, I have led projects that improve transport connectivity, shape public policy, and improve cities' resilience against disasters, setting new benchmarks in urban planning and sustainability.

Education

University College London (UCL)

The Bartlett Faculty of the Built Environment,
MSc, Urban Spatial Science

London, UK
QS Rank-1
2024

National Institute of Technology (NIT)

Srinagar, India

- Bachelor of Technology in Civil Engineering [CGPA: 9.241/10, Rank-2nd (Silver Medalist)] . 2014
- Topped all branches of engineering at NIT with an SGPA of 9.68 (out of 10) in 2010.

Experience

Public Works Department (PWD), Govt. of India

India

Assistant Engineer, PMGSY

Mar 2017 – Aug 2023

- Led the implementation of the Indian National Rural Road Plan (PMGSY-III) to connect rural populations in Northern Region of India. Managed spatial planning, groundwork, & implementation across the region. Ensured effective communication within the team & served as a liaison between multiple stakeholders.
- Recognized as "Outstanding Officer" by the Government of J&K, India for the year 2021-22.

Indian Oil (IOCL), Ministry of Petroleum and Natural Gas, Govt. of India

India

Officer (Health, Safety, Engineering and Environment)

May 2015 – Feb 2017

- Conducted environmental and safety audits, managed work permit issuance, and led job safety analysis (JSA) for engineering and operational activities at major oil installations.
- Recognized with "Outstanding Employee" award for 2015-16 [Performance rating of 4.38 out of 4.5]

Achievements

- Was selected to the three prestigious Russell Group Universities of UK for Masters in 2023 with full scholarships. "Tetley and Lupton Scholarship 2023" and "International Masters Excellence Scholarship 2023" at University of Leeds, "FELS - Southampton Environmental & Life Sciences Deans International Scholarship" at University of Southampton, and "Commonwealth Scholarship 2023" for MSc at University College London (UCL)
- Awarded Science and Technology Merit Scholarship by Dept. of Science & Technology, J&K.
- Awarded Certificate of Merit by British Safety Council Award, 2017 which shows the commitment of my team to high standards of health, safety & environment.
- Awarded Certificate Of Appreciation by Govt. Of J&K. for able leadership and maintaining healthy communication with the Fire Department and extending full cooperation during an off-site fire and emergency incident and playing a leading role in bringing the emergency under control.

Skills & Other Information

Technical: Q-GIS, Net Logo, Python, R, SQL, Quarto, Git, and Google Earth Engine

Language: English (Fluent), Kashmiri (Fluent), Hindi (Fluent), and Urdu (Fluent)

Memberships: Member-Engineering for Change (E4C); Member-Institution of Engineers of India (IEI)

Volunteering: Senior Professional First Aid-Indian Red Cross Society

Projects All of my Projects and Publications are hosted on my **WEBSITE**
